QUALIFYING

In the event that GT7 does not have the lobbies running with a Qualifying stint. For disciplines that run with the need for a Qualifying stint, then the lobby, after Practice will be set to a 10-minute qualifying race. The result of this qualifying race will determine the grid positions for the main race.

For events running more than one race then the subsequent races will be based on grid positions from the previous race and will be set as **FASTEST to SLOWEST** in that order.

BALANCE OF PERFORMANCE

In the event that GT7 runs that requires multiple car classes then the BOP settings will be manually applied. Details of which can be found here.
